KASSO MÜHENDİSLİK SAN. VE TİC. A.Ş.

KASSO is an engineering and manufacturing firm that has specialized in metalworking since its foundation in 1975. In 1986, the company extended its activities by embarking on expanded mesh metal sheet manufacturing through the TEKŞAN-KASSO partnership. Today, KASSO Engineering boasts a fully equipped metalworking plant in its headquarters in the Istanbul Anadolu Yakasi Organized Industrial Zone. Here, the company operates patented high-technology machinery that enables to offer innovative solutions and turnkey projects for its clients.

KASSO Engineering continues to grow with the philosophy of becoming a one-stop-shop for its clients' metalworking needs. As the innovator of "Architectural Metal Cladding" in the construction industry, the brand's products are widely used in industrial applications, as well as architectural projects. Empowered by its extensive experience and know-how gained over the years, KASSO is registered as the 71st Design Center in Turkey and very 1st in its industry.

TMS®

GROUP

TMS KALIP VE İSKELE SİSTEMLERİ SAN. VE TİC. A.Ş.

TMS as Your Partner Dedication is a term which purely expresses our past 51 years bound with Quality, Reliability and Innovation. These core values along with our adamant dedication have justified our presence as a fast growing, dynamic and reputable company since our foundation:1973. TMS, has been found in 1973 as one of the first local "Modular Scaffolding" manufacturers in Turkey. After 1980's, "System Formwork" production has been initiated and improved with great progress.

At the point where we are, TMS is standing as one of the industry leaders with a complete provider attitude, supported with elaborate service and wide product range. As we proudly position ourselves as an engineering company more than a producer or a supplier, we make use all our capabilities in order to sustain innovation in our products and services. Hence, every new TMS product or service comes out with some innovative details and we believe this is our key to the future. As we excel with our competent engineering solutions, which bring to our customers the economy and efficiency at their projects, we endeavor to cope with all engineering challenges and ensure the best and most cost-effective solutions through developing safer, stronger, and quicker formwork and scaffolding systems. While aiming to do this, we prepare detailed offers including: 'Design Calculation, Planning & BOQ, Supervision at Site, Assembly & Shop Drawings, Full Submittal Files & Method of Forming'.

Therefore, as soon as we become your solution partner, you will immediately feel our excellent engineering in every least detail of our product and in every phase of your project, from bidding to the end. In short, TMS, as a 'Customer Oriented Company' aims to work hand in hand with you, as your project team-mates. Thanks to our many years of experience, TMS, one of the leading Formwork Systems manufacturers along with sounding presence in mechanical construction materials and automotive sector, has, today, proudly turned into a multi-regional and multi-national Group of companies exporting to more than 60 countries. In 2024, TMS is, proudly, celebrating her 51st year in business.
